

Assistant (Student)

Working student for the SDN lab

The *Software-Defined Networking (SDN) lab* offers the opportunity to work with real hardware on interesting and entertaining projects related to the SDN network paradigm. For the next semester, a position is available to assist the teaching assistants for the lab (definition and preparation of the assignments, preparation of the hardware, etc.).

Prerequisites

- Solid knowledge in computer networking (TCP/IP, SDN)
- Solid knowledge of networking tools and Linux (iperf, ssh, etc)
- Good programming skills: C/C++, Python
