

Assistant (Student)

MATLAB tutor for Digital Signal Processing lecture in summer semester 2022

Tasks:

- Help students with the basics of MATLAB (e.g. matrix operations, filtering, image processing, runtime errors)
- Correct some of the homework problems
- Understand the DSP coursework material

We offer:

- Payment according to the working hours and academic qualification
- The workload is approximately 6 hours per week from May 2022 to August 2022
- Technische Universität München especially welcomes applications from female applicants

Application:

- Please send your application with a CV and transcript per e-mail to basak.guelecyuez@tum.de
- Students who have taken DSP course preferred.
